3/26/68

Dear Hal,

With Stan gone, I am sending you the Doyle File from CR 30 for whatever routing your deem appropriate. The first page is the one I believe I earlier provided a copy of, from, I think, CD 6.

Note that each of the four reportso by the same agent, in almost exactly the same language, declared that young Doyle took pictures, while not a single one states that the agents got the pictures and sent them to the FBI, which is one way to level when you are investigating the murder of a President and have data on his alleged assassin.

The Archives tells me there is no Doyle picture there, which is what I expected, but it is now official and I have left a record.

Please keep me posted on whether they deliver or send the film.

Sincerely,
